Catrax Show operating

Catrax Show ready for transportation

The mobile base, the system of retractable wheels and its customization capabilities give Catrax Show true differential assets in the events market.

- Epoxy powder painted in black and detail tabs in the columns
- Bidirectional three-arm mechanism with safety drop-arm device
- Locking system using two electro-magnets
- Rotating system monitored by two optical sensors
- 5 digits electronic counter with battery power and independent control (optional item)
- Steel top cover with 2x16 character big number display, acrylic holder to install a reader and pictograms for operation (optional item)

- Key with secret for top cover opening
- Turn and release controller allows for integration with the client's access controller
- Full range power supply (90-240 VAC input)
- Lateral pictogram guidance
- Integrated base with metalon and aluminum sheet structure
- Two sets of wheels for moving the turnstile
- Connectors for quick connection at the base of the turnstile
- Two side doors with opening to the outside

Applications

OPTIONS

- MCA model control board - TCP / IP
- Support for readers
- Card collector
